MISSING GLIDE CLOCK-IN/OUT

Accurate clocking = accurate data. Fix it the right way.

MISSED CLOCK-IN (forgot to clock in)

1. Clock in to the bundle
2. Add a note with correct start & end times
3. Set to 'Needs Manager Attention' in Glide
4. Move bundle to next station

MISSED CLOCK-OUT (before break or end of previous day)

1. Add a note:
   - Time you finished
   - Complete or partial complete
2. Set bundle to 'Needs Manager Attention'
3. Confirm bundle is at the correct station

NOTICED A MISTAKE ON A PREVIOUS STEP

Don't fix it — flag it. Here's how.

WHAT TO DO

1. Add a note in Glide explaining what's wrong
2. Set task to 'Needs Manager Attention'
3. Place bundle on the Manager Attention shelf
4. Do NOT try to fix it or push it forward

MACHINE PROBLEMS

Don't exit the task just yet — troubleshoot first

Check your machine

Threaded properly?
Needle installed correctly?
Tension ok?
