MISSING GLIDE CLOCK-IN/OUT

Accurate clocking = accurate data. Fix it the right way.

MISSED CLOCK-IN (forgot to clock in)

1. Clock in to the bundle
2. Set to 'Needs Manager Attention' in Glide
3. Add a note with correct start & end times
4. Move bundle to next station

MISSED CLOCK-OUT (before break or end of previous day)

1. Set bundle to 'Needs Manager Attention'
2. Add a note:
   - Time you finished
   - Complete or partial complete
3. Confirm bundle is at the correct station

NOTICED A MISTAKE ON A PREVIOUS STEP

A fix might take just a minute or two

1. Fix the issue without clocking out of your current task
2. Continue your task

An extensive fix is needed

1. Set task to 'Needs Manager Attention' in Glide
2. Add a note explaining what's wrong
3. Place bundle on the Manager Attention shelf
4. Do NOT try to fix it or push it forward

MACHINE PROBLEMS

Don't exit the task just yet — troubleshoot first

Check your machine

Threaded properly?

Needle installed correctly or needs replacement?

Tension ok?

QUICK REFERENCE

Which card do I need?

Card 1 — BATCH TRACKING
A clock-in or clock-out was missed on a bundle

Card 2 — FLAGGING ISSUES
You noticed a mistake made in a previous step

Card 3 — MACHINE PROBLEMS
Machine is acting up and TNT check didn't fix it

NOTES

PAYCOM

Punch Issues

MISSED A PUNCH
